

Categorizing Study Aid

Have your students fill in a “Categorizing Grid” for concepts you are teaching. You list categories and examples of items for them, and students put the items in appropriate columns/rows. Later, students should be able to create their own grids. Here are some formats and templates.

Categorizing Grid Samples

	Example 1	Example 2	Example 3	Non-Example/Opposite
Type 1				
Type 2				
Type 3				

	Characteristic 1	Characteristic 2	Characteristic 3
Type 1			
Type 2			
Type 3			

	Who developed it	When	Major Point
Theory 1			
Theory 2			
Theory 3			

OR

	Theory 1	Theory 2	Theory 3
Who developed it			
When			
Major Point			

	Structure	Function
Type 1		
Type 2		
Type 3		

	Example 1	Example 2	Example 3	Example 4
Prototheria				
Metatheria				
Eutheria
